SANCHIT S BHADORIA

COMPONENT ENGINEER

+1 (916) 634 - 6782 | MJSANCHIT@GMAIL.COM | https://sanchitportfolio.github.io/

PROFESSIONAL SUMMARY

Results-driven mechanical engineer with manufacturing and engineering expertise, leading cross-functional teams and delivering solutions from concept through final integration. Seeking to expand global experience while sharing U.S. engineering perspectives and gaining exposure to new industry best practices.

CAREER HIGHLIGHTS

- Developed a new engineering design for the Amtrak ICT Conductor's Office within the Café Car, addressing functional layout, systems integration, and compliance with applicable rail and safety standards.
- Led the full lifecycle development of new Finishing infrastructure at Siemens Mobility, Sacramento encompassing concept and detailed design, bid package development, procurement, installation, and commissioning, as well as coordination of City, Fire, and Air Quality permitting, for a capital investment exceeding $2M.

WORK EXPERIENCE

Component Engineer | Siemens Mobility, *Sacramento USA* November 2020 – Present

- Develop and specify technical requirements for passenger rail vehicles, including preparation and review of detailed engineering drawings and documentation.
- Led system-level design development for both new and legacy projects, providing direct technical support to engineering management.
- Collaborated with cross-functional teams to optimize the design-to-production transition, including material selection, tooling & process definition, and manufacturing implementation.

Industrial/Manufacturing Engineer | Siemens Mobility, *Sacramento USA* April 2016 – November 2020

- Prepared manufacturing cost estimates and bid proposals for future programs, and managed Estimate at Completion (EAC) labor hours for active projects.
- Implemented the AC63 accelerator for the 3M™ 560 adhesive system, increasing production throughput and workstation capacity by 30%.
- Optimized the passenger coach coating application process, achieving a cycle-time reduction of approximately 100 labor hours per vehicle.

Associate Engineer | Grasim Industries, *India* May 2012 – December 2012

EDUCATION

- **Master of Science in Mechanical Engineering – Design & Manufacturing** 2013 – 2015
  California State University Long Beach, USA
- **Bachelor of Science in Mechanical Engineering** 2009 – 2013
  Indore Institute of Science & Technology, India

SKILLS & CERTIFICATES

- **Project Management Job Simulation** | Siemens Mobility | September 2026
- **Operations Job Simulation** | Goldman Sachs | September 2026
- Creo Parametric | SAP | SolidWorks | AutoCAD | Time Management | Effective Communicator
