

SANCHIT S BHADORIA

COMPONENT ENGINEER

+1 (916) 634 - 6782 | MJSANCHIT@GMAIL.COM

PROFESSIONAL SUMMARY

Self-motivated engineer seeking opportunities to expand global experience in rail systems. Results-driven professional with broad experience across locomotives, passenger coaches, and light rail vehicles, and a proven record of driving continuous improvement initiatives. Demonstrates strong ability to work independently as well as to lead and coordinate cross-functional teams.

CAREER HIGHLIGHTS

- Led the full lifecycle development of new Finishing infrastructure at Siemens Mobility, Sacramento encompassing concept and detailed design, bid package development, procurement, installation, and commissioning, as well as coordination of City, Fire, and Air Quality permitting, for a capital investment exceeding \$2M.
- Developed a new engineering design for the Amtrak ICT Conductor's Office within the Café Car, addressing functional layout, systems integration, and compliance with applicable rail and safety standards.

WORK EXPERIENCE

Component Engineer | Siemens Mobility, *Sacramento USA* November 2020 – Present

- Develop and specify technical requirements for passenger rail vehicles, including preparation and review of detailed engineering drawings and documentation.
- Led system-level design development for both new and legacy projects, providing direct technical support to engineering management.
- Collaborated with cross-functional teams to optimize the design-to-production transition, including tooling selection, process definition, and manufacturing implementation.

Industrial/Manufacturing Engineer | Siemens Mobility, *Sacramento USA* April 2016 – November 2020

- Prepared manufacturing cost estimates and bid proposals for future programs, and managed Estimate at Completion (EAC) labor hours for active projects.
- Implemented the AC63 accelerator for the 3M™ 560 adhesive system, significantly increasing production throughput and workstation capacity.
- Optimized the passenger coach coating application process, achieving a cycle-time reduction of approximately 100 labor hours per vehicle.

Associate Engineer | Grasim Industries, *India*

May 2012 – December 2012

EDUCATION

- **Master of Science in Mechanical Engineering – Design & Manufacturing** 2013 – 2015
California State University Long Beach, USA
- **Bachelor of Science in Mechanical Engineering** 2009 – 2013
Indore Institute of Science & Technology, India

SKILLS

- Creo Parametric | SolidWorks | AutoCAD | SAP
- Time Management | Effective Communicator | Multilingual
